

RECORD EXCEEDED IN IRON AND STEEL TRADE

Output in October the Heaviest
Ever Known; Enormous Or-
ders From Railroads.

NEW YORK, Oct. 31.—Another week of heavy transactions in iron and steel products has established a new record of sales for October. The output of both pig iron and steel ingots has been the heaviest ever known. Consumption of finished steel products is also increasing, but it is difficult to determine to what extent, as contracts are placed largely for future delivery. The railroads have continued to be the most important support of the steel works, placing very heavy orders for rails, cars and locomotives last week. Interest was centered mainly in the New York Central purchases, which included nearly 15,000 cars, 25 locomotives and 10,000 tons of rails. It is estimated the railroads have been responsible, either directly or indirectly, for 2,000,000 tons of finished steel products in October. Manufacturing industries have placed orders for semi-finished and finished material aggregating 1,000,000 tons.

The demand for wire products and tin plates has been especially heavy for this season; in fact, all kinds of finished material, with the single exception of fabricated structural steel have rolled up a very heavy tonnage. Fabricated material, however, has been unsettled during the last ten days, and prices sagged because of the efforts to secure new business by some contractors who have unfilled tonnage of material contracted for with the mills at low prices.

"Do not elect me and tie my hands with an opposing Council," is Mayor Bransford's appeal to the progressive men and women of Salt Lake. The Mayor knows how helpless he would be to carry out the public wish if handicapped by a reactionary Council.

SPECIAL OPERATORS
Will be engaged in answering inquiries about the election at the Bell Telephone office Tuesday evening. Ask for "Elections Bureau."

WILL PLACE MUCH LAND UNDER WATER IN IDAHO

Special to The Tribune.
WEISER, Ida., Oct. 31.—The contract for the big dam and tunnel of the Crane Creek Water & Power company, which will irrigate more than 20,000 acres of land immediately surrounding this city, has been let. The dam and reservoir the company will be about fifty miles southeast of this city and several hundred feet higher. Some of the land to be placed under water is within less than half a mile of the city limits of Weiser. The land to be watered is among the finest in this section, being particularly adapted to the raising of fruit.

It is the intention of the promoters to have water on about 9,000 acres of the land in time for the irrigating season next year. The benefits to be derived by this section from this new enterprise is almost incalculable. It will more than double the area of irrigable land tributary to this city, which means a large increase of population and a large increase of marketable products.

Cataract, an excessive secretion from an inflamed mucous membrane, is radically and permanently cured by Hood's Sarsaparilla.

The American emblem—the flag—is on the top lever this year. Pull the flag lever to the right until the bell rings.

LOCAL OPTION CAMPAIGN IS GETTING INTERESTING

Special to The Tribune.
WEISER, Ida., Oct. 31.—The local option campaign in this county is becoming a warm proposition. The election takes place Wednesday, November 17. Already both the "wets" and the "drys" have their speakers in the field, making speeches and organizing for the struggle. A Taxpayers' league, consisting of the business men of the city and near towns, has been organized and money subscribed to carry on the campaign. The "drys" are just as active.

They are thoroughly organized and are putting forth every effort to win. November 2 a debate will be held in here between two leaders of the "dry" forces in this city. The speakers engaged by the "wets" from Boise. Arrangements have been made to run a special train from the towns in the northern part of the county to this city for the benefit of those who desire to hear the debate.

Children Cry FOR FLETCHER'S CASTORIA

Make your plans to vote
early tomorrow. If you do so
you will greatly aid in getting
out a full American vote.

Have you read "Lights and Shadows of Mormonism"? Perhaps prejudice prevents your securing this book. IT IS NOT A MISFEIT. It is an analytical and logical study of Mormonism and prevailing conditions in Utah. You owe it to yourself to read this book. Price \$1.25. For sale by all newsdealers and The Tribune office. Sent postpaid upon receipt of price.

Freshman Is Drowned.
STANFORD UNIVERSITY, Cal., Oct. 31.—While inspecting some construction work today on the University bridge, near Palo Alto, Charles W. Anthony, a freshman of the university, fell from a bridge into the bay and was drowned. Anthony was registered in the university. His father is in Salt Lake City, having intended to visit the boy, and is due to arrive today.
